STRATEGY EXECUTION

Bridge your strategic objectives and recourses to transform into thriving, successful organization.

OVERVIEW

Strategic execution is one of the most important activities in an organization. Your organization might already be on the competitive map but only solid strategy execution can keep you there. Based on recent surveys the majority of companies state that important strategic and operational decisions are not translated into action quickly and effectively. Organizations tend to lack a way to connect their strategy with the resources they already have to effectively execute. If the bridge between strategy and execution is not functioning well it will have inevitably negative impact on the organization. In this 3 day workshop participants will learn how to connect strategic objectives with the specific resources and action plans needed to make them happen.

PRIMARY OBJECTIVES & BENEFITS

This workshop will help participants to:

1. Understand strategy and strategy execution.
2. Be able to identify resources for strategy execution.
3. Execute strategic plan on schedule - leadership approach.
4. Assess and manage key stakeholder relationships.
5. Translate organizational strategy into business priorities that are cascaded through the organizational hierarchy.
6. Select metrics and establish accountability for all levels of objectives.
7. Measure the progress and performance of the strategic initiative.
8. Deploy specific methodologies, projects and people to achieve the objectives.

WHO SHOULD ATTEND?

- Senior Management
- Managers
- Change Leaders
